

## VSWS

Driving is one of the biggest risks to our workforce and in the past 5 years, 12 colleagues have been killed as a result of incidents while driving.

As part of our continued commitment to get you **home safe every day**, last year Network Rail agreed to implement VSWS in all company vehicles.

It will go live across Wessex on **Friday 1 September** now that we have reached the required 90% installation rate. This means from 1 September, the system will start to record where a driver is exceeding the speed limit for more than 60 seconds and all driving offences will be investigated.

There will be daily conference calls week commencing 29 August to answer any questions and give further clarity

# VSWS

Over a 4 week period general locations where vehicles have exceeded 20mph+ over the indicated road speed. (Gold stars.)  
Most exceedances have occurred on:

- ▶ Dual carriageways
- ▶ 50mph roads
- ▶ Between 00:00 – 04:00
