

Wessex Safety Learning Event

On Monday 9 January a member of staff working on track at Waterloo was stepping over the conductor rail when they lost their footing resulting in a twisted right ankle.

For further information contact: Steve Edwards Inner WHSEA (steven.edwards@networkrail.co.uk)

Discussion points:

Everyone should discuss these points with their teams – whether in the office or on site. Please send any feedback to Steve

- Is your footwear in good condition and laced up to provide optimum support?
- Does your PPE provide you with sufficient support and protection?
