

# Wessex Safety Learning Event

On Friday 12 January, a member of the Track RAM team was walking trackside undertaking an inspection when they slipped in muddy ground and injured their right ankle. This is the second ankle injury on the Route this week.

## Discussion points:

*Everyone should discuss with their teams – whether in the office or on site. Please send any feedback to Tracey.*

- How much attention do you pay to your underfoot conditions when walking
- What actions can you take to reduce the risk of slipping?
